Have you fulfilled your creative knitting desires today? We've got everything you need but the sheep!
CLASS SCHEDULE • FALL 2008

Come by the store to check out some of our fabulous new yarns and patterns.

New Yarns Inspiring

All the companies seemed to come up with a "green" segment of their fall yarns this year. Come by and take a look. They're very inspiring with lots of natural coloring. Great pattern support for the new yarns, too.

And if you want more color, we've got that, too. Texture? Softness? Washability? We can show you what's new. You're going to love it!

Double Punches on Class Materials!

We know how you love your Reward Cards, so we're going to offer double punches when you pick up your class supplies at Yarn Garden instead of somewhere else. We are a local, independent shop and in order to continue offering great yarns, teachers, and classes, Yarn Garden needs to make some income on the sale of class supplies in order to continue our great customer service. Therefore, we are encouraging you to purchase your class supplies from us and we will reward you with double punches on your reward card. As a reminder, we don't punch for the class fees because your class fees go to the teacher.

We have resisted preventing students from bringing outside materials to Yarn Garden classes (as other shops have done) and hope that we can encourage your support by explaining what it takes to run a successful education program and yarn shop.

Thanks for your continued support!

And Speaking of Teachers...

We haven't raised our class fees for several years, and decided it's time for a small increase. It's such a small increase, it's more of a gesture of thanks to our great team of teachers. Thanks, teachers, we love what you teach us!

Congratulations to our \$100 Gift Certificate Winners!

Here they are: For June 2008, it was Jacqueline Lydston, for July it was Laurel Coombs and for August it was Sarah Loob. Congratulations, Ladies! We hope you have a great shopping spree!

Yarn Garden University Registration Procedures

Our teachers have requested that students come prepared with materials to their first class. They have a lot of teaching to get in, and request that you purchase any materials in advance.

Our staff will be happy to discuss your class materials with you before your class.

If there is a class material fee it will be payable directly to the teachers at the first class. Payment is required at registration.

As many of you have found out, the classes fill very quickly, so you should register as soon as possible. We are able to register you over the phone with a credit card, or online at our website, yargarden.net.

Our cancellation policy provides you with a full refund within 7 days of your class. After that, if we are able to fill your seat with someone on the waiting list, you will still receive a full refund. If we are unable to fill your seat, the fee is forfeited.

Staff Picks

By Mary Taylor

With worries about the economy it may not seem like the time to spend money on an “extra” like yarn, but yarn and knitting may be just what we need right now. Sure, it’s cheaper to buy a sweater than buy yarn and knit one, but working with our hands has always been part of a simpler, less energy intensive life. As the holidays approach, homemade gifts like a cozy hat or lovely socks, can be cheaper and much more meaningful than the newest electronic gadget or another set of scented candles for Aunt Millie. Knitting is, at its most basic, a simple, creative process that can be quiet and meditative, or bring us together with other people. While we are all thinking about driving less and spending less, how about an evening with friends knitting and chatting, or curling up with a favorite movie and working on some holiday gifts? Knitting can keep our heads warm or give us a way to relax. We can knit to exercise our creativity, or to make something that is not mass produced, or to show our love. As resources are getting scarce and prices are getting higher, we hope that knitting can be part of the solution and part of what makes life good for you!

Rowan has introduced two new yarns in their Purelife line that fit well with an intention to make things simpler and more environmentally responsible. Organic Wool Naturally Dyed is a 100% organic yarn in a DK weight, dyed in soft natural colors. The dyes are low impact and come from plants like onion and ivy. British Sheep Breeds is a chunky yarn from undyed wool from four sheep breeds - Suffolk, Jacob, Black Welsh, and Bluefaced Leicester - blended to create five beautiful shades. Wonderful pattern collections show off the best qualities of each yarn and will tempt you with their many beautiful sweaters. Working with these yarns is a marvelous way to reconnect with the earthy, calming traditions of knitting.
